MONTANA

Office of State Examiner

Helena, December 30, 1916.

Hon. S. V. Stewart,
Governor of Montana.

Sir:

Complying with the requirements of the law, I submit the twenty-second Annual Report of the State Examiner, and the second Annual Report of the Superintendent of Banks, for the fiscal year ending November 30, 1916.

At present it is impossible for me to give a tabulation of the counties and cities, for the reason that the necessary data has not yet reached the office.

On the call of November 10, 1915, there were two hundred fourteen state banks, and twenty-one private banks, with total resources of \$71,896,636.54. The last call for 1916 was made for close of business November 17th, which included two hundred twenty-nine state banks, and sixteen private banks, with total resources of \$104,287,467.44—an increase of \$32,390,830.90, amounting to 45% increase between these dates. During the year there were four private banks converted to state banks, and one was liquidated; two others are now in process of incorporating, one as a state bank, the other as a national bank. For the same period, four state banks have nationalized, two have moved to new locations: Fromberg State Bank to the town of Edgar, and Camas State Bank to Hot Springs. Charters have been granted to fifteen new banks, one being the consolidation of two national banks forming a bank and trust company. Many National Charters have been issued by the Comptroller of the Currency for small towns, and it is apparent there will be more competition between state and national institutions for the country points than heretofore.

With the exception of a few banks chartered late in the season, all of the banks have been given one examination, and in addition, quite a number have received special examinations.

All of the forty-one counties have been examined during the year, and in addition, six special examinations have been made.

The examination of the cities and towns commenced at the beginning of the fiscal year, May 1st, and all will be examined by the 1st of April, at which time there will have been eighty-nine cities and towns examined. The deputy having this work in charge has also examined sixteen building and loan associations in the state and one foreign. The statement that two hundred forty-five banks, forty-one counties, eighty-nine cities, and seventeen building and loan associations, with the extra examinations made, does not convey to the mind of the public the work

entailed in making these examinations, and the time expended in travel and work on reports. During the last fiscal year, the distance traveled by myself and deputies amounted to one-hundred twenty-three thousand miles by rail. This does not include several thousand miles traveled by automobile. Traveling at the rate of twenty miles per hour, we have six thousand one hundred fifty hours, and allowing ten hours per each working day, gives six hundred fifteen days for eight men (which includes myself and deputies), or seventy-seven days for each man per year. There are forty-one counties in which eight officials are examined, requiring three hundred twenty-eight examinations. The cities average four officials to be examined, making a total of three hundred fifty-six examinations.

Summary:

Banks	245
Counties	328
Cities	356
Building and Loan Associations	17
School Districts	21
Irrigation Districts	8
State Officials	25
<hr/>	
Total Examinations to be made	1,000
For examining the fourteen largest counties, it	
requires the work of two men	125 days
For the remaining twenty-seven counties	108 days
Time for traveling	77 days
Examining state officials	30 days
For office work, compiling reports, etc.....	25 days
<hr/>	
TOTAL	365 days

In this there is no allowance made for Sundays or holidays, and it shows the actual work only; no provision being made for extra and special examinations. This shows the impossibility of two men (the number allowed) doing this amount of work. In consequence, the four deputies engaged in bank examinations had to be placed on the county work to enable us to complete the necessary work. Therefore, I was unable to make the two examinations required for the banks, and for another reason, there was not sufficient money in our expense fund to permit the four deputies engaged in bank examinations to make the second trip over the state.

Under the ruling of the Attorney General that this department is not permitted to require a uniform system of accounting in the cities, the examinations as now conducted are nothing but a farce, and it is only time and money wasted in making examinations of the smaller towns, and I would suggest that no towns under the second class be examined, or have the law properly amended.

In conclusion I beg to call your attention to the inadequate system of keeping the accounts of the state. Repeated examinations of the state departments have impressed me with the importance of installing a better and more comprehensive system of accounting, and to this end I most earnestly urge that a commission be appointed to investigate the situation, appraise the value of all state property, and employ an expert to open an up-to-date set of books.

Respectfully submitted,

H. S. MAGRAW,

State Examiner and ex-officio
Superintendent of Banks.
